

Airspace Infringements

Don't become a collision risk

Airspace Infringements can lead to:

disruption of traffic

- delays to airport arrivals and departures
- increased aircraft operating costs

increased fuel burn and pollution

loss of separation

Airprox

prosecution

and **ARE A COLLISION RISK**

Infringement costs:

delay

- Boeing 747 @ £100+ per minute

collision

your life and **THE LIVES OF OTHERS**

KNOW YOUR AIRSPACE

- make sure you have the latest database
- make sure you programme your GPS correctly
- GPS is not your primary means of navigation

don't let your GPS
make you an
infringement statistic

is your airspace chart up-to-date?

don't become an infringement statistic

- make sure your chart is up-to-date
- check NOTAMs
- programme GPS correctly
- get a clearance to enter controlled airspace
- if you get lost ask for help
